

TURNOUT PRODUCTS

From passenger transports to playground equipment, we do rail machining !

- We design and manufacture turnouts with equipment from passenger sales lines to tracks for transportation within factories.
- We conduct field surveys and propose optimal equipment.
- We will participate in activities to improve maintenance work.
- If you have any trouble with items using rails, please contact us by all means.

Various Turnouts

Expansion Joint

Rail Machining

Design and manufacture of various turnouts, from Taisho 14 model turnouts to Shinkansen turnouts.

Design and manufacture of rail machined products using light rails (6kg~) for factory transportation, amusement equipment, construction, etc.

**Built up since its founding in 1946,
we contribute to safe and secure transportation
with reliable technology.**

 **SEKIGAHARA SEISAKUSHO LTD.**

~ We create the future of railroad devices ~
